

The CAN wall light provides versatile lighting options for various commercial and private projects. The classic spotlight can be perfectly integrated into individual room concepts. The GU10 base enables simple replacement of the lamp, while the screw-on cylinder allows tool-free access. Installation for rigid and flexible conductors is particularly easy due to the integrated push terminals. Individual accents can be created with the optional, interchangeable decorative rings. The CAN wall light is part of a comprehensive series and is also available as a pendant, ceiling, reading and outdoor light.
